

THIRD TICKET NAMED

Prohibitionists Nominate Candidates.

THEIR PRESIDENT AND VICE.

John Bidwell, of California, heads the ticket for first place and J. H. Cranfill, of Texas, gets the second place. Proceedings of the Convention.

CINCINNATI, July 1.—Music Hall was not crowded in any part of it Thursday morning, when the fourth session of the Prohibition national convention began at 10 a. m. It opened up on time. The quartet and the band each took a turn at the musical program, and then a short prayer was offered by Rev. J. C. Quinn, of Fremont, Neb.

The chairman then appointed R. E. Hudson postmaster, to distribute the accumulation of letters.

Then the actual business of the convention was opened.

W. W. Gibbs, of Virginia, introduced the following resolution:

WHEREAS, The Prohibition party is not a sectional party, but a national party, and

WHEREAS, The issues of the late civil war were settled and settled forever; therefore

RESOLVED, That it is the sense of this convention that speakers who are accorded the honor of addressing the convention be required to refrain from unnecessary references or illustrations that could be construed as a reflection on any of the participants in the late struggle.

It was adopted by a nearly unanimous vote.

The resolution was brought in in consequence of Mrs. Gougar's rhetorical flourish about the evils of slavery at the session of Wednesday evening.

Then came a request from the White Ribbon society asking that their leader, Frances E. Willard, be brought up for a speech. Gallantry carried it, and she was escorted by Gibbs, Stevens and Cranfill to the stage. While they were hunting her a telegram was read from Mrs. General Fisk, saying: "God speed the day of victory."

Another telegram was in favor of Bidwell for president and provoked some cheers, and ended by prophesying that "St. John, the Lincoln of the party," ultimately would be elected president.

Then came Francis Willard, on the arm of Gibbs. She was greeted with cheers and waving of handkerchiefs. Then she began: "You do this, and yet you say I am in favor of fusion. I am in favor of a fuse like that made for torpedoes, and with it I would blow up both old parties."

She made a brilliant speech and was presented a bouquet by the Women's Christian Temperance Union at its close. Chairman Dickie then stated the need of money for the cause, and appointed a dozen or more deputies to stand all over the hall and catch the names of those who pledged to give money. Dickie then deputized Professor Evans, of Illinois, to make the appeal. Dr. Funk, of The Voice, started the thing with \$1,000, which caused a loud cheer. This was so encouraging that Evans said: "We want \$1,000 men now. Come on."

Then through Dickie, W. T. Wardwell, of New York, gave \$1,000. James Roberts, for Massachusetts, promised \$500, and Chairman Dickie, for Horace Waters, the organ maker, subscribed \$500. I. J. Keator, of Colorado, put down a like amount.

J. B. Hobbs, of Chicago, sent up a check for \$500. Other contributions were: C. D. Greenleaf, Butler, Pa., \$500; Frank Burt, Mammington, W. Va., \$500; Joshua Levering & Brother, Baltimore, \$500; Francis A. Crawford, New York, \$500; New Jersey delegation, \$500; Minnesota delegation, \$500; Virginia, \$1,000; Tennessee, \$500.

The work of collecting for political purposes was slow work and Brother Evans began appealing, with campaigning fervor, for "all Christian men and women to contribute to the cause of the Lord."

The New York delegation went out for consultation, and Indiana explained that, having given \$3,000 through their organizer, they could add but \$200 now. Georgia gave \$500, part of it being a sawmill worth \$300, with the injunction for Democrats not to "monkey with the buzz saw." Iowa gave \$100, and Chairman Dickie pledged \$200 for his "Prohibition boy." C. C. Crowell, of Blair, Neb., \$250; Maryland delegation \$250.

As the work went on slowly some one yelled out: "What's the limit?" but to only a few were the words a familiar reminder.

Crowell's gift was made just after he received a telegram telling that he had a new Prohibition girl baby at home.

Samuel Phelps and Alexander McVittie, of Detroit, gave each \$100, and Wisconsin followed with \$500; A. B. Andrews, of Laporte, Ind., with \$100; and Rev. Father Mahoney, of St. Paul, gave \$100, and there were loud cheers. Other contributions were: Frances Willard, \$100; M. J. Fanning, \$100; Nebraska, \$125; H. M. Winslow, \$100; Mrs. H. P. Faris, Clinton, Mo., \$100; Sol Haynes, Indianapolis, \$100; Kentucky, \$500, pledged by George W. Bain; Pennsylvania, \$1,700, contributed by delegates in various amounts; Ohio, \$1,082; J. M. Ritchie, Neosho, Mo., \$500.

The convention thinned out considerably by noon, as the work was tedious and it was evident that no business would be done before dinner.

New York returned from a conference and gave \$1,000, in addition to the amounts already given by that state.

Then it was announced that over \$20,000 had been subscribed and much of it was paid in. The Prohibition editors were called to meet after the afternoon session, on the stage, and the convention at 12:15 adjourned until 2 p. m.

Afternoon Session.

At the opening of the afternoon session of the Prohibition convention, to

the surprise of everybody, the platform committee was ready to report. Judge Black, of Pennsylvania, made a statement that there was a majority and minority report.

Here is an abstract of the majority report: After depicting the evils of the drink traffic to the nation and the home, the resolutions condemn all efforts at regulation by license as "vicious in principle and powerless as a remedy."

Entire suppression of the manufacture and sale of liquor is insisted upon.

Other provisions of the platform are:

No denial of the right of suffrage on account of sex; the granting to laboring men of one day of rest in seven; arbitration in international difficulties; tariff only as a defense against foreign goods; government control of railroad and telegraph systems; immigration laws should be revised and enforced; the time of residence for naturalization purposes should be extended; non-resident aliens should not be allowed to acquire land in the country, and the limitation of individual and corporate ownership of land is favored; mob law is condemned.

The liberal pensioning of disabled soldiers and their widows and orphans is favored. Speculation in margins, and the cornering of money and products and the formation of pool trusts should be suppressed.

The money of the country should be issued by the general government only, and in sufficient quantity to meet the demands of business and give full opportunity for the employment of labor. To this end an increase in the volume of money is demanded. No individual or corporation should be allowed to make any profit through its issue. It should be made a legal tender for the payment of all debts, public and private. Its volume should be fixed at a definite sum per capita and made to increase with our increase in population. We favor the unlimited coinage of silver and gold.

The appropriation of public moneys for sectarian schools is opposed. The protest of the old parties against the admission of "moral issues" into politics is a confession of their own moral degeneracy; the old parties protest when out of power against infraction of civil service laws, and each, when in power, violates those laws in letter and in spirit. Each professes fealty to the interests of the toiling masses, but both covertly truckle to the money power. The Democratic Mills bill and the Republican McKinley bill are no longer treated by them as an issue between great and divergent principles of government, but as a mere catering to different sections.

We protest against interfering with the right of suffrage in any way or attempting to improperly influence it.

When both reports were presented, a motion to lay the majority report on the table was badly beaten. The majority report was then adopted.

The convention then adjourned until evening.

Evening Session.

The hall was crowded to suffocation at the evening session. Prayer was offered by Rev. Dr. Hagans, of Indianapolis. Then Chairman Ritter announced that the roll of states would be called for nominations for president of the United States. When California was reached ex-Governor St. John, of Kansas, took the stage at the request of the delegation and placed in nomination General John Bidwell, of California. He reviewed his career from the time that he crossed the Rockies in 1841, told how he had calloused his hands with picks as a miner, eulogized his life and works, and defended him from the attacks that had been made upon his career in congress.

Wardwell, of New York, asked if it was true that Bidwell was a sickly man, to which St. John replied that according to the testimony of his wife he was well and hearty.

Hipp of Colorado, Whitfield of Iowa, Bain of Kentucky, and numerous others seconded Bidwell's nomination.

Illinois withdrew its candidate, ex-Judge McCullough and Michigan withdrew John Russell.

W. Jennings Demorest, of New York, was nominated by J. Lloyd Thomas, of that city, and seconded by Professor Grandison, colored, of North Carolina. Ohio, through L. B. Logan, presented Gideon T. Stewart, the venerable Buckeye Prohibitionist.

Sam Small, of Georgia, seconded the nomination of Demorest on behalf of the solid delegation from that state.

A ballot being taken Bidwell received the majority of votes and his nomination was made unanimous.

J. B. Cranfill, of Texas, was nominated for vice president, and the convention adjourned sine die.

Clarkson on the Campaign Committee.

WASHINGTON, July 1.—Chairman Campbell, of the Republican national committee, left on the Columbian express over the Pennsylvania road yesterday afternoon for home. The names of the executive committee will be given out by Mr. Campbell at Chicago within the next few days. Before leaving the city Mr. Campbell stated that at the request of himself and the president, Mr. Clarkson had accepted a place on the executive committee and would have an important and confidential part in the campaign.

Lightweights Fight.

PORTLAND, Or., July 1.—Billy Smith, of Boston, and Charles Gleason, of Portland, lightweights, fought at the Pastime club last night with five-ounce gloves for a purse of \$700. Smith won in the fourth round. Both men were cautious for the first three rounds. At the beginning of the fourth round Gleason led, but Smith got away, and quick as a flash wheeled and with a stinging pivot blow on the neck knocked Gleason down, and out.

Fell Overboard.

NEW YORK, July 1.—Leonard Dutch, a German seaman on board the British steamer Horrox, from Rio Janeiro, fell overboard on June 10 in latitude 70 degrees, longitude 53 degrees and was drowned.

THE SILVER BILL.

It Furnishes a Topic for Senators to Discuss.

A VOTE MAY SOON BE TAKEN.

Some of the Members Not Anxious for the Matter to Be Settled, While Others Are of an Entirely Different Opinion. But Little Done in the House.

WASHINGTON, July 1.—The senate proceedings yesterday were diversified by a somewhat acrimonious debate over the unanimous agreement entered into Wednesday to take a vote on the silver bill. It was an obvious case of consenting in haste and repenting at leisure. It was claimed that Democratic senators opposed to free coinage were absent. Mr. McPherson, of New Jersey, attempted to break through the agreement but was held to it by Mr. Morgan and other silver advocates. Mr. Dolph, of Oregon, moved to recommit the bill to the committee on finance and the question will probably come up in that shape. The different senate committees of conference reported almost hopeless disagreements with house conferees upon leading features of the great appropriation bills. Mr. Allison, chairman of the committee on appropriations, said none of the bills had yet gone to the president and he asked the senate to concur in a house resolution extending existing appropriations fifteen days. This was done.

In the house the Republicans succeeded in preventing the consideration of the tin plate bill, and the house devoted several hours to a conference report on the District of Columbia appropriation bill, the item of contention being the appropriation of \$75,000, one half to be paid out of the federal treasury and one half from the district revenues for the entertainment of the Grand Army of the Republic at its encampment in Washington next September. The subject opened the doors for patriotic speeches reviving the incidents of the war, and at times the house was in great confusion. A new conference was ordered. A resolution was passed extending the appropriations for the support of the government fifteen days. The house then at 6:15 p. m. adjourned.

FAVORABLE TO FOSTER.

The New Secretary Eminent Fitted for the Place.

WASHINGTON, July 1.—It is improbable that any man was ever given a cabinet position with such unanimity of approval as follows the advancement of General John W. Foster, secretary of state. The first real criticism is yet to be heard of his appointment, which was without any political tendency and upon his merits alone. Major W. R. Kinney, of Louisville, a Democrat whose eloquence and legal attainments have secured him the highest rank at the Kentucky bar, is here and says: "I was intimately associated with Colonel Foster during the war, and can state from personal knowledge that he was a most efficient soldier. He was in command of a division embracing several Kentucky counties, with headquarters at Henderson. The country about was thickly settled with guerrillas, as we styled the secessionists, and Foster's great forte was in locating them before any one else knew of their presence. He seemed to have an intuitive knowledge of the art of war, and rendered the Union arms splendid service."

CIRCLES NOT COMPLETE.

The American Wheel Company Still in Embarrassing Circumstances.

INDIANAPOLIS, July 1.—Judge Baker, of the federal court, yesterday entered an order for the sale of the plant of the American Wheel company which failed a year ago, and for which Noble C. Butler, clerk of the court, was appointed receiver. The sale will be private and the sale will take place on July 14. Bids will be received up to that time. It is understood that Crawford Fairbanks, a Terre Haute capitalist, will head a syndicate to buy the entire plant, and that it will be operated on the same general plan as before.

The plant is so extensive that there will be but little competition and there may be but the one bid. Under the receiver's management the trust has been doing a large business and might have paid out but the creditors have become impatient and the sale is ordered at their request. Several of the heaviest creditors are supposed to be interested with Fairbanks in the purchase.

DEATH AND DISGRACE.

Both Come at Once to Two Young Indiana Girls.

HARTFORD CITY, Ind., July 1.—Marshal Hogan last evening arrested Della and Sadie Jennings, near Upland, for attempting to pass counterfeit money. The coin was a dollar, bearing the date 1897, and was a fair imitation of a silver dollar.

They made several attempts to pass the money and the grocers, thinking they were honest, did not say anything about it until it became known that several trials had been made to pass the money.

The girls were remanded by Squire Edson to await their preliminary trial, which occurs tomorrow evening.

Just before being taken to jail, the young woman received word, stating that their sister had just died. Interesting developments are expected, as it is thought there are a large gang of them working off counterfeit money.

Brakeman Killed.

LAPORTE, Ind., July 1.—A brakeman named William R. Meseler, employed on the Michigan Central railroad, was killed at Michigan City yesterday by falling from the top of a freight train.

DIRECT TO NORWAY

Hereafter Will Go Most of Our Products Wanted There.

CHICAGO, July 1.—Gustav Spanberg, of Christiania, Norway, is in the city for the purpose of arranging for direct shipments of American products to Norway. Mr. Spanberg, though a Norwegian, was for many years a resident of this country. While visiting his native land sometime since he saw his opportunity to act in the interest of Norwegian importers and to assist them in escaping from the tribute which they have been paying to Great Britain on imports from this country. Nearly all the exports of the United States to Sweden and Norway have been shipped via the port of Hull, England, and in English boats.

Up to a few years ago all American products used in Sweden and Norway were purchased from English agents. Within the last two or three years a number of Norwegian importers have been buying direct from this and other American cities to some extent but the business is not so extensive as the trade would seem to warrant and the English middleman is still able to levy his toll. Mr. Spanberg is confident that a direct line of steamships between Norway and the United States will be established. He is armed with letters from Christiania importers and from the American consul at that place, Gerhard Gade. He has already made contracts for large shipments of flour direct from Topeka, Kan., to Christiania.

WAGES OF SIN.

A Feeling of Remorse Leads a Man to Take His Own Life.

BUFFALO, July 1.—The body of a mysterious suicide lies at the morgue awaiting identification. It is that of a young man who was found dead in the park on Tuesday afternoon with a bullet hole in his head and a revolver in his right hand.

The body has been recognized as that of a man who came here last Friday. At the depot he met Rev. Mr. Bond and told him he was in trouble. Mr. Bond sent him to the Young Men's Christian association building, where Secretary Allard had a talk with him. The stranger acted strangely, would give no name or information about himself, but said that he had committed a sin that knew no forgiveness, and was particularly anxious to know if the secretary thought a murderer could enter heaven. He said further that he had come from England about three months ago and had been in Canada.

There was nothing found on the body which would establish the man's identity. In the pockets were some Canadian bank notes. It is thought the man had committed a murder and through remorse had taken his own life.

SAVINGS BANKS.

One Financially Embarrassed in Buffalo, New York.

BUFFALO, July 1.—It is probable that the National savings bank will be placed in the hands of a receiver and will resume business for the benefit of the depositors, as was done in the case of the Ulster county bank. This is the action that Superintendent Preston thinks will be taken. Mr. Preston said that the deficiency is greater than the surplus, thereby rendering the bank insolvent and for that reason he has taken possession of the concern. He also expressed the belief that the trustees could not be held personally liable.

Speaking of savings banks in general Mr. Preston said: "The percentage of loss in these institutions is small in comparison with their importance to the community. There are no institutions, as a whole, more safely or more conservatively managed. The savings banks' resources in this state aggregate \$675,000,000, so you see the percentage of loss is very small."

STORM TOSSED.

Considerable Damage Done at Several Places in the East.

PHILADELPHIA, July 1.—A very severe and destructive storm visited this place and vicinity last night. It was the most severe in the northern section of the city.

Jun Jenkins, colored, was killed by lightning at Dungee's brick yard, at Two Hundred and Fifty-eighth and Cumberland streets. Several persons in that locality were shocked by lightning, and others injured by flying timber. Dozens of roofs were blown off.

At Gloucester, N. J., the sporting resort of Philadelphia, Patrick Hyhlans, aged fifty, and Robert Hamilton, aged forty, were killed, and a number of persons injured. Great damage to property was wrought in Jersey towns along the Delaware river. It is feared that many sailboats were capsized on the Delaware during the storm and a number of people drowned.

Norwegian Ministers Resign.

CHRISTIANA, July 1.—The Norwegian ministers tendered their resignations yesterday. The premier stated that this action of the ministry was due to the king's refusal to sanction the storthing's resolution in regard to the establishment of separate Norwegian consulates. The king in accepting the resignation of the cabinet intimated that he would further consider the question to which the crisis was due.

Rumored Train Robbery.

CHATTANOOGA, July 1.—East Tennessee officials have just learned that an attempt will be made to hold up train No. 3, leaving Bristol 1:40, at Johnson City. Fifteen police have been sent from Bristol to arrest the robbers.

OURAY, Colo., July 1.—Ten thousand miners in the San Juan district have struck work against a reduction of wages agreed upon by the managers. People generally throughout this section are averse to any trouble with the miners as it would be a great blow to business interests.

LOCKED OUT MEN.

Hundreds of Steel Workers Now Idle.

NO DISTURBANCE OF ANY KIND.

Thousands of Workmen Assemble in an Open Air Meeting and Adopt a Number of Resolutions—A Pittsburgh Nail Company Signs the Scale.

HOMESTEAD, July 1.—Every employee of Carnegie, Phipps & Company, at their Homestead mills, is idle today except the mechanics and day laborers, who are engaged on repairs. At 10 o'clock yesterday 3,000 workmen assembled in open meeting at the opera house and thoroughly canvassed the situation. The meeting was orderly, and the several addresses counselled strict observance of law and order.

A resolution was adopted, that during the lockout no member of the Amalgamated association should be permitted to leave the town without a special permit from the lodge officials under penalty of dismissal from the organization. Another resolution was unanimously adopted that the day mechanics and day laborers shall be called out at once. Committees were appointed to watch all trains and entrances to the town to prevent the importation of outside work.

Twenty of the Amalgamated association were sworn in as special officers by the burgess yesterday, and will aid in preserving order. The locked-out men anticipate the arrival of Pinkerton men and are prepared to welcome them. The officials refuse to talk on the subject. Eight effigies of proprietors and officials ornamented as many telegraph poles in the vicinity of the mills yesterday. At noon good order prevailed throughout the town and the locked-out workmen were assembled in groups quietly discussing the situation.

Nail Company Signs the Scale.

PITTSBURG, July 1.—The Oliver Wire and Nail company of Pittsburgh, signed the Amalgamated association scale yesterday. Between 300 and 400 men are employed in this department. The Amalgamated officials expect a number of signatures to their scale during the day.

MAY BE A LYNCHING.

A Young Lady Mysteriously Disappears and Intense Excitement is Created.

ENGLISH, Ind., July 1.—This town is wild with excitement over the mysterious disappearance of Miss Nancy Hopkins, who is supposed to have committed suicide. Recently she began keeping company with Horatio Quigley, who had separated from his wife. Miss Hopkins' parents demurred to such a course, but their pleadings were unheeded.

Last Sunday she was missing from home, and, after a long search, she was discovered in company with Quigley. Upon again being reprimanded by her parents, she threatened to commit suicide. On Monday evening, accompanied by Quigley, she attended a dance at the city hall and failed to return home. Since then search has been made in every quarter, the neighbors aiding the distracted parents and doing everything in their power.

Fears are entertained that the girl has fulfilled her threat of self-destruction. Quigley walks the streets with his usual carelessness, and will give no satisfactory answers to questions, save that he knows nothing. His brutal leer indicates that he cares nothing. The young lady is a comely girl, aged about twenty-two, and of respectable parentage. Quigley is twenty-eight. If the girl is not found he will be prosecuted. There is a threat of mobbing, but the officers have the populace well in hand.

Sad Ending to a Pleasure Party.

NEW ORLEANS, July 1.—A skiff, containing a pleasure party of eight, visited the Deligny crevasse Tuesday night. A strong eddy capsized the boat, and notwithstanding assistance from the shore, the following persons were drowned: Miss Anglo Lambert, Miss Amelia Lambert and Miss Julia Hymel, young ladies, ranging from sixteen to eighteen years of age, and young Hymel, a brother of the drowned girl, aged fourteen. Miss Hymel and her brother were from Donaldsonville, and the Misses Lambert lived in the vicinity. All were well connected socially.

Sensational Elopement.

HUNTINGTON, W. Va., July 1.—Mrs. Charles Beale, a pretty married woman, left this city suddenly yesterday, abandoning her husband and two children to elope with George Whittington, a married man, a neighbor, who leaves a wife. Both are people of middle age, and the elopement created great surprise. They were seen at Catlettsburg, Ky., last evening, and are evidently bound for Cincinnati. The lady has heretofore borne an excellent name. Her husband says he will not attempt to bring her back.

Harvesting Wheat in Water.

QUINCY, Ill., July 1.—The river is still rising rapidly, and the Linc lake and Indian grave district levees are under water at several places. The crops in both districts are sure to be totally destroyed. In these districts the farmers are cutting the tops of wheat off which are still barely above water. The levee below here is also in great peril, and a large force of men is engaged in strengthening the weak places. Several factories here will likely be compelled to close down if the river goes any higher.

A Duel Prevented.

PARIS, July 1.—Captain Cremieux Foa, the Jewish officer, about to fight a duel with the Marquis de Mores, has been ordered on a special mission to Tunis.

FOR VICE PRESIDENT, **ADLAI E. STEVENSON,** Of Illinois. **WEATHER INDICATIONS.** For Kentucky, cooler; fair, northerly winds. **HOT-SHOT FROM THE WOOLEN WORKERS.** The Kensington Reform Club of Phila- delphia, an organization composed en- tirely of workmen, in their petition to Congress last April in favor of the Free Wool bill say: "Although labor is most directly inter- ested in the arrangement of tariff sched- ules it has been customary for those who favor high protective duties to turn a deaf ear to its appeal despite their pro- testations of solicitude for the welfare of the toilers, while the clamors of those who find a special interest in high duties, having the time and means to besiege the doors of Congress, have not been un- heeded. The fact that is being tried out of the workmen enables them to render special service to the partisan ma- chine, and thus they can make their weight felt far better than the fleeced workmen. "Now, however, that there is once more an opportunity for labor to be heard upon an equal footing with the capital- ists, we, the Kensington Reform Club, as an organization composed of workmen in every branch of the textile industries, send greetings to the friends of fair play and honest and equal govern- ment, with a prayer for the immediate passage of the Free Wool bill now under consideration in the House, which, while it may not fully meet our desires, is yet a measure offering great relief to the whole people. "The labor in the woolen mills has never been in so depressed a condition as in the past year, the carpet industry was never so demoralized. Wages have been reduced both in a direct way and by various subterfuges called adjustments, readjustments and fines, and yet the cost of living has been perceptibly increased until the condition of labor is well-nigh unbearable. Employment has grown more unsteady, many mills working but partial time, some closed entirely, while in others the waiting for work filling amounts to a loss of from one-quarter to one-half time. "This is no idle talk, but the result of investigation, as it is one of the missions of our organization to intelligently watch the effects of legislation upon labor, and we here add that there has never been an increase of tariff rates that was not almost immediately followed by reductions of wages. This is surely contrary to what was prom- ised as a result of the tariff law passed by the last Congress, and it is therefore not surprising to find workmen realizing that they have been fooled once too often. "If, as has been asserted in Congress recently, the manufacturers do not need or want a high tariff, and that it is solely for the benefit of labor, which never gets any of it, then there is not the slightest impediment to a mutual agreement for its abolition. But since the gentlemen who make this assertion still oppose a reduction, the workmen, who do not want it either, are certainly justified in praying that these kindly souls may stop their benevolent endeavors to raise wages by law, which they cannot do, and set about raising them in the mills which they can do, and if they will only divide with their workmen that which they usually give to the party machine, it will make a perceptible difference in the workers' pay-roll." The women of New York are organiz- ing Francis Cleveland Influence Clubs. They propose to take a hand in the pres- ent fight, and they will be heard from before the campaign is over. Ex-Speaker Reed says they defeated the Republicans in 1890.

Air Pressure at the Cannon's Mouth.

Experiments were made during the last trial trip of the armed cruiser Beowulf to determine the air pressure at the mouth of a gun at the moment of discharge. Rabbits were placed near the muzzles of the guns and shots fired. In every case the animals fell dead at once. In order to test the probable effects of the enormous displacement of air upon human beings figures made of straw were used. These were torn to pieces in every instance. The trials were made with long bored 24-centimeter ring guns.—Berlin Cor. London News.

An Elephant Eats a Dog.

During the progress of a circus and menagerie on Monday, and while a number of people were watching the elephants, a keeper placed a bucket of water in front of them. Just then a small black and tan dog skipped up to the water bucket to take a drink. The elephant wound his trunk around the unfortunate dog, shoved him in his capacious mouth and swallowed him alive. The lady who owned the dog saw her pet disappear and burst out crying.—Poughkeepsie Eagle.

A Mixed Season.

A truthful farmer, living near Salem, Or., is authority for the statement that in his garden one day last week they were planting, digging and hoeing potatoes. They were digging last year's crop, after being in the ground through what the calendar calls winter, and they were hoeing potatoes that were planted some time ago.

HEAVYWEIGHTS FIGHT.

Joe Goddard, of Australia, Knocks Out Joe McAuliffe, of California.

SAN FRANCISCO, July 1.—The fight for a purse of \$2,500, between Joe Goddard, the Australian heavyweight, and Joe McAuliffe, the ex-champion heavyweight of the Pacific coast, took place last night in the Republican wigwag in the presence of 4,000 persons.

The men opened the seance in hammer and tongs style, McAuliffe having the best of it in the first two rounds. One of his blows in the first knocked the Australian off his legs. Goddard was a game and unhurt, however, and came back at the Frisco lad with vigor. The fighting fell off a little in the third and fourth rounds, but in the fifth Goddard forced matters, McAuliffe acting entirely on the defense.

Hard fighting by Goddard was the feature of the sixth and seventh. In the eighth he fought Mac to the ropes. Mac braced up in the ninth, and landing several hard ones in the face, made Goddard somewhat Groggy.

The men fought at close range in the tenth, Mac receiving some fearful punishment in the face and stomach.

Goddard went at Mac like a cyclone in the eleventh, punching him all over the ring. He had to go into Mac's corner to open proceedings in the twelfth. Joe uppercuted the Californian several times in the thirteenth and fourteenth rounds, and forcing him into a corner, hammered him viciously about the face.

Throughout the fifteenth round Mac was a chopping-block and was finally knocked out.

Goddard showed that he was a hurricane fighter, possessed of great strength.

INHUMAN PARENT.

A Fiendish Father Attempts to Murder His Entire Family.

RALEIGH, July 1.—Near Lumberton, last evening, Frank G. Mears, a white man living near there, compelled his six-year-old son to walk home. Being tired when he reached there he lay down on the steps and fell asleep. The father, finding his wife in bed sick, picked up a piece of plank and attempted to kill her. She fled with a baby in her arms, but the fiendish husband dealt the infant two blows on the head. He then beat the other children most brutally, saying he would kill them all.

To the boy lying asleep on the step he dealt a fearful blow on the back of the head, badly fracturing his skull. The inhuman man removed his blood-stained garments, put on his best clothes, and came to Lumberton. News of the bloody tragedy was soon known. The sheriff instantly arrested Mears and lodged him in jail. The youngest child will die. The others are unconscious, and will either die or be crippled for life. When asked where his children were, Mears replied their bodies are at my place, but their souls are in heaven.

DEATH OF A DIVINE.

Rev. Dr. Walter Williams Dies in Baltimore.

BALTIMORE, July 1.—Rev. Dr. Walter Williams, late rector of Christ's Protestant Episcopal church, died at Sudbrook Park, at where he was residing for the summer with his sister. In October last he resigned the rectorship of Christ church on account of illness.

Dr. Williams was a native of Norfolk, Va., and was about sixty-two years old. He was well known in the Episcopal clergy for his scholarly attainments. He had been the rector of Christ's church for ten years, and before coming to this city had charge of the congregations at Leesburg, Va., Georgetown, D. C., and St. George's church in New York.

Will Erect Carbon Works.

NOBLESVILLE, Ind., July 1.—Eastern capitalists have arrived in this city with plans and specifications for the mammoth carbon works which have been talked of for some time. The plans for the buildings are now open for the inspection of contractors, and the management is ready to receive bids for construction. It is the intention to begin as soon as possible, and the works will be pushed to an early completion. There are but few such manufacturing plants as this in the gas belt, and Noblesville is to be congratulated on securing such an important industry. It will furnish employment to more laborers than any manufacturing plant that has as yet located here.

The American Hen Has Protection.

OTTAWA, July 1.—A bulletin issued by the finance department shows the possibilities of an egg trade with Great Britain. The egg trade with the United States last year was valued at \$1,177,831, as compared with \$2,095,435 in 1885. Since the McKinley bill went into operation Canadian eggs have sought a market in England. For the six months ending with September, 1890, the exports from Canada to Great Britain were only \$1,208, but for the year ending Sept. 30 last the figures reached \$250,000.

A Just Demand.

BALTIMORE, July 1.—One thousand coat makers went on a strike Thursday in an effort to free themselves from "task" work. Heretofore each tailor has been allotted a certain amount of work by the contractors, to be done in a day. Sometimes to finish this, it is claimed, a person had to work fourteen or sixteen hours. The men want to work ten hours a day for reasonable wages, and have weekly pay days.

Wrecked by a Cow.

STREATOR, Ills., July 1.—A freight train was wrecked two miles west of Winona, on the Chicago and Alton line, last evening, by striking a cow of a crossing. Engineer William Bellows, of Lacon, was instantly killed, and Fireman Reeder, of Dwight, had one foot crushed. The engine and several cars went into the ditch.

CINCINNATI TOBACCO MARKET.

(Wednesday.)
The "breaks" were of moderate size, being 718 hogsheads, which was 115 less than the same day last week. There was a very fair attendance of buyers, and they were bidding tolerably well as a general thing. Trashes and hogs were in good demand, and the market was comparatively firm for all that were in good condition. Common and medium leaf was doing fairly except the samples of red, which are still ruling low. Good leaf and also choice was in good demand at unchanged prices. The Cincinnati sold forty-five hogsheads at \$15 @ \$21. The 718 hogsheads sold as follows:
12 hogsheads at \$1 00 @ \$1 05
35 hogsheads at 4 00 @ 5 25
521 hogsheads at 6 00 @ 7 35
221 hogsheads at 8 00 @ 9 35
48 hogsheads at 10 00 @ 11 75
71 hogsheads at 12 00 @ 14 75
98 hogsheads at 15 00 @ 19 75
12 hogsheads at 20 00 @ 24 00
